Overview

Understanding Bootstrap Components

Adding components to our pages

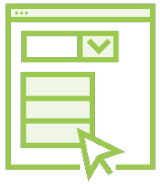
- Jumbotron
- Nav and Navbar

Understanding Bootstrap Components

Bootstrap Components

Ready-made building blocks

Work using CSS classes



Sometimes require jQuery for interactivity

Basic Bootstrap Components

Progress

Button

Jumbotron

Nav & Navbar

Card

Forms

Demo

Working with the Progress component

Adding Components to Our Pages

Demo

Adding the Jumbotron component to the detail page

Demo

Adding navigation to the site using nav and navbar

Summary

Components can be used to introduce otherwise complex functionality to a site

Some components require support of jQuery to unleash their functionality
